EDUCATION

EF International Academy, New York

September 2010 - June 2012

- International Baccalaureate® (IB) Diploma

University of Washington, Seattle

September 2012 - June 2019

- Bachelor of Science - Bioresource Science and Engineering
- Bachelor of Arts - Department of Dance

SKILLS

Technical Skills	HTML, CSS, JavaScript, AJAX jQuery, Bootstrap, API, Local Storage
Language	Mandarin, English
Softskills	Critical Thinking, Active Listening, High Adaptability, Problem Solving, Team Building, Leadership

CODING PROJECTS

Dumbbells and Donuts
Coding Boot Camp at University of Washington

📅 October 2020   ⚲ Seattle

- Utilized Youtube and Edamam API to build an interactive workout/nutrition tracking app. This app pulls workout videos according to user's preference and allows user to search for nutritional values for food. This group project was broken down into a front-end and back-end team who worked in tandem to produce an interactive web-app.
- HTML, Foundation Framework, CSS, APIs, jQuery, Local storage
- ○ https://alischrec.github.io/Dumbbells$_{and}$$_{Donuts}$/

Weather Forecast Dashboard
Coding Boot Camp at University of Washington

📅 October 2020   ⚲ Seattle

- Used the OpenWeather API to retrieve weather data for cities and use localStorage to store any persistent data. The dashboard will display the current weather of temperature, humidity, wind speed, and UV index, which will be color coded upon danger level.
- HTML, CSS, Bootstrap, API, Local Storage
- ○ https://jesshuang7.github.io/WeatherDashboardAPI/

Work Day Scheduler
Coding Boot Camp at University of Washington

📅 October 2020   ⚲ Seattle

- Created a simple calendar application that allows a user to save events for each hour of the day by modifying starter code. Time blocks are color-coded according to its presence
- HTML, CSS, Bootstrap, Moment.js, Local Storage
- ○ https://jesshuang7.github.io/Work$_{Day}$$_{schedule}$/

OTHER EXPERIENCES

Process and Quality Engineer
McKinley Paper Company

📅 Sep 2019- Sep 2020   ⚲ Port Angeles

- Provide engineering expertise for process design, system optimization, quality control, commissioning start-up, and trouble-shooting of paper machine and water systems
- Follow and execute "Engineering, Procurement, and Installation" guidelines for all projects
- Working with production team and customers on new product and grade development
- Evaluate chemical vendor's proposals and coordinate chemical trials for improving paper manufacturing

Student Desk Representative
University of Washington Housing and Food Services

📅 Aug 2018-June 2019   ⚲ Seattle

- Helping students get situated in residence halls and listening attentively to students concerns
- Organization and distribution of mail and packages to students and staff in an efficient manner

Full-Time Voluntary Docent
The Church of Jesus Christ of Latter-Day Saints

📅 Dec 2016-July 2018   ⚲ Taiwan Taichung/Salt Lake City

- Communication with people from over 40 countries and other voluntary docents
- Guided tours for groups as small as a single person up to groups of 40 people
- Led and initiated trainings and activities for other docents
